Clinical Scientist (Reg No. CS4700)
Prince 2 Practitioner (Reg No. P2R/117145)
Member, Institution of Engineering and Technology
Member, Institute of Physics & Engineering in Medicine

Summary:

Andrew is a State Registered Clinical Scientist and Senior Project Manager at MTS specialising in the Health sector. Andrew is a Chartered Electrical Engineer and a Prince2 Practitioner. He is currently working as a Trust equipment advisor on the Mid Essex Healthcare NHS Trust 2010 PFI project.

After graduating, Andrew joined the NHS in 1984 working in Medical Physics (equipment management) leaving in 1990 to join Hewlett-Packard's Healthcare Group as an application engineer. Andrew's experience at HP encompassed education & training, software product development, quality management and managed equipment services. It was during his time at HP that he became involved in Healthcare new build projects which encompassed PFI, P21 and LIFT, Andrew joined MTS in 2006 and has successfully project managed at a senior level a variety of clinical and capital projects, including construction, equipping and commissioning of several redevelopment schemes.

Andrew has worked at MTS for five years and has a particular interest in the impact of equipment on the design development of projects, the emphasis being on the integration of technology into room design. He also has expertise in data management and analysis required to develop equipping models to support projects from the initial business case stage through to final commissioning. This encompasses equipment scheduling, planning, equipment procurement, tendering and equipping project management.

Project Experience:

- Broomfield (Mid Essex PFI 2010)
- John Radcliffe Hospital Oxford
- Portsmouth Hospitals NHS Trust
- Hemel Hempstead Hospital
- Sandwell & West Birmingham Hospitals
- University Hospital of North Staffordshire
- Aneurin Bevan
- Caerphilly
- Taunton Hospitals
