

Ed Hogbin

Profile:

Job Title: Radiology and Radiotherapy Equipment Specialist

Qualifications: HNC Applied Physics
Certificate of Management Studies

Summary:

Ed has over 35 years experience in the management of Medical Equipment with a variety of roles both in the private sector and the NHS.

As an associate of MTS, Ed provides specialist knowledge of clinical and technical requirements ranging from architectural design, procurement, and installation through to the lifecycle management and maintenance of imaging and radiotherapy equipment.

He has experience of working commercially within the health care sector, particularly with regard to PFI schemes, both as provider, with Impregilo, and as the Equipment Project Manager at Barts and the London NHS Trust. He has a high level of understanding of all aspects of MES projects working to deliver successful outcomes for the public sector.

Project Experience:

- Barts and the London New Hospital Scheme – Programme Manager with responsibility for the Trust equipment procurement strategy that included an MES for diagnostic and Radiotherapy Equipment.
- Central Middlesex Hospital ACAD Centre – Provided complete equipment management service under the terms of one of the first medical equipment PFI schemes in the UK.
- Coventry University Hospitals New Hospital – Consortium advice on all aspects of medical equipment for Impregilo and Carillion. Undertook an audit of all transferring equipment and provided detailed cost information to support the bid.
- Derby Hospitals NHS Trust - Advice on all aspects of medical equipment for the Impregilo and Carillion consortium.
- The Royal Wolverhampton Hospitals NHS Trust – Key member of successful bidding team to provide State of the Art imaging facilities at New Cross Hospital, providing equipment planning guidance, architectural advice and equipment specifications.
- Lothian University Hospitals NHS Trust – Detailed analysis of Trust's equipment requirements and provision of outline cost information
- West Midlands Regional Health Authority – Responsible for all imaging equipment schemes throughout the West Midlands with major new hospital schemes at Nuneaton, Tamworth, Sandwell and Bromsgrove.
