

Gary Nesbit

Profile:

Job Title: Senior Project Manager

Qualifications: ONC Electrical & Mechanical Engineering
HNC Electronics & Electrical Engineering

Summary:

Gary is a Senior Project Manager with over 35 years of experience in medical equipment covering a wide range of technology and clinical specialist areas. He has led the contracting of managed services for clinical equipment within this environment from concept through contract negotiation into establishment of on-site services.

He has recently joined the MTS team, bringing a wide range of knowledge regarding furniture and equipment and had previously been involved in numerous equipment planning scheduling exercises.

Gary worked with Siemens Plc for over 25 years, following which he was a key member of the initial team formed by Siemens to address equipment within PFI. Following his time at Siemens he took up posts within two companies providing equipment and furniture consultancy services in the UK and internationally.

As a senior member of the MTS team Gary manages all aspects of the planning, tendering, procuring, installation and commissioning.
